

## Diverclean System

# Shurefoam No. 1 / Chlorineige 300

**Chlorinated foam cleaner; soft metal safe**

# VF7

### Description

**Diverclean VF7** is a silicated, soft metal safe, self-foaming, chlorinated cleaner that finds particular application in areas of heavy soiling. It is formulated with specific ingredients that inhibit corrosion on soft metals.

### Benefits

- Chlorinated - Rapid attack and removal of organic and protein soils. Broad spectrum biocidal action
- Surfactant/sequestrant blend - Excellent soil penetration. Suitable for use in hard water
- Free rinsing - Easy to remove after use
- Inhibited - Prevents corrosion on metals

### Key properties

**Diverclean VF7** is a soft metal safe, chlorinated alkaline self-foaming liquid detergent/sanitiser. It combines alkaline detergent components with foam boosting surfactants to provide convenience and economy in a single package. The presence of chlorine makes it effective for removing fat, blood and other proteinaceous food soils and stains found in canneries, bakeries, dairies, breweries, soft drink and meat plants.

**Diverclean VF7** is inhibited to reduce corrosion especially on aluminium.

**Diverclean VF7** also contains hypochlorite to aid fat and protein removal and provide micro-biocidal properties.

### Use instructions

**Diverclean VF7** may be applied by a pressurised water system (either ring main or mobile) fitted with a post pump chemical injector and a (compressed) air supply.

Alternatively **Diverclean VF7** may be applied using a special pressurised chemical applicator.

Pre-rinse the surface thoroughly to remove loose soil particles. Use **Diverclean VF7** at 3-5% v/v depending on the degree of soiling, at ambient temperature. Let foam stand approximately 5-15 minutes then rinse thoroughly with potable water.

### Technical information

Appearance	Clear liquid, pale green
Odour	Characteristic, chlorine
Specific Gravity at 20°C	1.21
pH (1% solution at 20°C)	12.3
Stability	Freezing point <0°C
Available chlorine (AvCl <sub>2</sub> )	2.6%
Chemical Oxygen Demand (COD)	100 g O <sub>2</sub> / kg
Nitrogen Content (N)	0.5 g/kg
Phosphorous Content (P)	9 g/kg

**Diverclean™**

# Shurefoam No. 1 / Chlorineige 300

## Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.
