

Metacrop HX-20

Product Data Sheet

Emulsifier and wetting agent for aqueous crop protection formulations.

TYPICAL PHYSICAL AND CHEMICAL PROPERTIES

| | |
|------------------|---|
| Type | Non-Ionic |
| Constitution | Glycol Ether compound |
| Appearance | Yellow Liquid |
| PH (1% solution) | 6.5-8.0 |
| Active content | 100% |
| Solubility | Dispersible in water in all proportions |
| Compatibility | Compatible with anionic and cationic products |

Applications

Metacrop HX-20 is recommended to achieve formulations like EC ME and other liquid formulations.

Storage

Stable under normal conditions, the product should be stored away from heat and container should be properly capped all the time (Cap the container after use). Avoid direct contact of sunlight.

Health & Safety

Health and handling advice on these products is given in individual data sheets, available upon request.

Technical Services

ICI Chemicals provides technical service and maintains a constant programme of research and development. The Group's technologists are available to work with customers in developing formulations to achieve optimal performance and economy. Samples of ICI Chemicals products are available on request.

Technical service and samples are backed up with detailed literature, such as product data sheets and guide recipes.
